WHY CHOOSE US

With over two decades of experience, **VKC RMC INFRA PVT LTD** is one of the most established companies in India when it comes to the production of construction materials. The company is associated with numerous features that have made it survive in the market. One of the most desirable aspects that have made the company survive in the market is a focus on superior quality products and sustainable production.

VKC RMC INFRA PVT LTD has been making an indelible mark in the Indian mining industry, comprised with a competent team of seasoned professionals.

VKC RMC INFRA PVT LTD constantly strive to bring in the best of technology and solutions to ensure efficiency, quality and satisfaction to clients and being accredited with an ISO 9001: 2015 certification.

The company's aggregate stones cover a large area from the production unit to the consumption unit moving across the states of India.

OUR FEATURES

VKC RMC INFRA PVT LTD ensures durability strength & flawlessness,

 **SUPERIOR QUALITY:** **VKC RMC INFRA PVT LTD** is made from crushing Charnockite / granite, using state of the art machinery, thus ensuring consistent quality throughout the manufacturing cycle.

 **PURITY:** **VKC RMC INFRA PVT LTD** is unadulterated & has no impurities unlike river sand that has organic & inorganic waste, clay content, non-environmental friendly & sometimes diluted with sea sand.

 **WORKABILITY:** Cubical shape with grounded edge, proper grading of fines & smooth surface texture provides greater durability & higher strength to concrete. Also it enables good plasticity to mortar, thus providing excellent work ability.

 **BIS STANDARD:** **VKC RMC INFRA PVT LTD** is scientifically produced to comply with BIS specifications (IS 383-2016 Zone II standard)

 **CONSISTENCY IN SUPPLY:** **VKC RMC INFRA PVT LTD** is readily available in any required quantities at relatively lesser cost compared to river sand.

 **OUR VALUES:** To manufacture & supply products which consistently meet and exceed customer requirements and satisfaction.

READY-MIXED CONCRETE

Ready Mix Concrete is strong, customizable, versatile, and durable, making it the most popular building material.

RMC can be used for all domestic, commercial and industrial projects, and for production of precast concrete parts like stairs, ceiling elements, structural components etc.

The commercial concrete vertical is the organization core business, which not only caters the needs of metro cities and semi-urban areas, but also serve as a steadfast contributor to the prolific development of urban areas.

The company caters to a gamut of concrete requirements encompassing lofty buildings to cherishes individual houses, solutions for mild exposure to the harshest of off-shore works, for enhancing aesthetic requirements to the jumbo strength and performance required for prestigious industrial and infra projects.

Our state of the art of plants are an ensemble of high commitment towards quality and service. It seems to be a recurring miracle when the company's concrete laden transit mixers, relentlessly brave the never-ending traffic snarls in cities to reach the project locations on time.

**We passionately understand Customer needs,
Product requirements & Deliver following concrete products:**

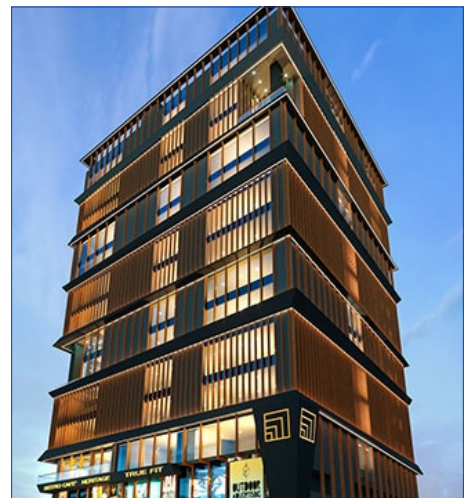

-  Plain / Ordinary Concrete
